¹ Federal CIP (Classification of Instructional Programs) Code - used by state and federal governments, college admissions sourcebooks, and national surveys for grouping and comparing degree programs offered by colleges and universities.

² May be an individualized major from Schools or Colleges other than the College of Liberal Arts and Sciences. For federal reporting, all individualized majors are reported in this CIP number.

³ Counted in state and federal reports as master's degrees because there is no federal award level for the second professional degree.
