Overview

Purpose
The purpose of the IPEDS Finance component is to collect basic financial information from items associated with the institution’s General Purpose Financial Statements.

There are a few new changes to the 2016-17 Finance data collection:

• For all institutions, the expense matrix has been removed and expenses are collected by functional and natural classification categories separately, except for salaries and wages.
• For GASB institutions, fields to collect deferred outflows and inflows of resources separately from current assets and liabilities to comply with GASB 63 have been added.

Please review the new screens and survey materials carefully.

If you have questions about completing this survey, please contact the IPEDS Help Desk at 1-877-225-2568.
The Finance survey report submitted under this UnitID is a combined report that includes data for all the locations listed below. Because this is a combined report, you must provide allocation factors that indicate how the data should be distributed to accurately reflect the finances for each included institution. Allocation factors are percents. The allocation factors you provide will be used to allocate the reported data on revenues and expenses to create derived variables for each component location for the IPEDS Data Center and Data Feedback Reports. These derived amounts are frequently used and should accurately represent the financial resources at each institution. You may NOT report a 0% allocation for an institution as this would indicate an institution had 0 financial resources for the fiscal year being reported.

Enter allocation factors in the spaces provided; use hundredths of a percent. Percents must add to 100%. You may not leave any cell blank. You will not be able to lock your data if this section is not completed.

If this list of institutions is not complete, or is incorrect in any way, or if you would like to report data for each component institution instead of submitting a combined report, or if you have any questions or concerns, please call the Help Desk at 1-877-225-2568.
